

30-01-2025

LET'S TALK ABOUT MYELOID CELLS!

13:00 CET

Keynote: Doctoral Mentorship

From bioinformatics

Amiram Ariel

University of Haifa

To clinical settings

Chiara Lattanzi

University of Verona

Alexander Dietrich

Technical University of Munich

Thibault Hirsch

Catholic University of Louvain

Vinton Cheng

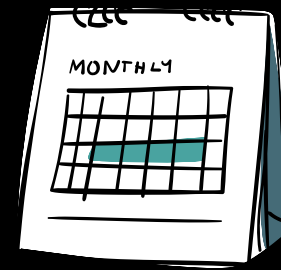

University of Birmingham

Events Calendar

30 JANUARY

Doctoral mentorship

13:00 CET

01

KEYNOTE

Serendipity as a driving force in scientific research.

20min talk + 10min discussion

13:30 From bioinformatics

02

NEUTRO
PHILS

The transcriptomic profile of suppressive neutrophils.

03

EVERY
THING

Cell-type deconvolution using omnideconv.

**15min
break**

20min talk + 10min discussion

14:45 To clinical settings

04

NEUTRO
PHILS

Study of the immune contexture during perioperative immunotherapy of NSCLC.

05

EVERY
THING

Focused ultrasound: stimulating an immune response against brain tumours.
